

Computer Science 2 Project	Team Members:	Audrey Uhma G. Salentes	
Group Progress Report		Hannah Rouella T. Tan	
3rd Quarter			
<b>Week 1 - Jan 16, 2026</b>			
GOAL	DATA COLLECTED	PROGRESS	
Asses proposal and clean up	Applicable coding functions and formats to be used	Pseudocode started /Half complete	
Start on the signin and signout	Code functions needed	Listed the needed code functions and code snippets to be used /Complete	
Specify account permissions	Student info, faculty info	Listed the permissions of each occupation/role /Complete	
<b>STRENGTH</b>			
Good knowledge on programming language			
All devices readily downloaded with the programming language			
<b>AREAS FOR DEVELOPMENT</b>			
Time management between both proponents			
Faster working on coding			
<b>STRATEGY FOR SUCCESS</b>			
Distribute the goals evenly			
Focus and agree on which strong suit each of us have

Group Progress Report		Hannah Rouella Tan
3rd Quarter		
<b>Week 2 - Jan 23, 2026</b>		
GOAL	DATA COLLECTED	PROGRESS
Finish the log in & log out	authentication, session management	half finished
Make menu visuals	Appropriate theme and layout	finished

#### STRENGTH

Available visual editors		
Customizable website		

#### AREAS FOR DEVELOPMENT

The clarity and neatness of the code		
Uniqueness of visuals		

#### STRATEGY FOR SUCCESS

get a second opinion by bystanders and possible users		
Let one focus on visuals and other on coding		

Computer Science 2 Project	Team Members:	Audrey Uhma G. Salentes
Group Progress Report		Hannah Rouella T. Tan
3rd Quarter		
<b>Week 3 - Jan 30, 2026</b>		
GOAL	DATA COLLECTED	PROGRESS
start menu code	Input/output, drop-down menus...	complete (with a few bugs)
Test out python website	code	complete
User account interface	user imputed data	halfway complete

#### STRENGTH

Aesthetically pleasing interface		
User friendly with many labels		

#### AREAS FOR DEVELOPMENT

Inefficient sign up process		
Updating roles for a user changing status (e.g. from [ALA] member to [ALA] president)		

#### STRATEGY FOR SUCCESS

One proponent focuses on the general code while the other reviews how to fix bugs
