Computer Science 2 Project	Team Members:	Audrey Uhma G. Salentes
Group Progress Report		Hannah Rouella T. Tan
3rd Quarter		
Week 2 - March 26, 2026		
GOAL	DATA COLLECTED	PROGRESS
Add full user details like name, grade, section, and organization		Not complete
Enable real support for QR codes and links in announcements instead of just labeling categories.		Not complete

STRENGTH		
The system includes an automatic expiry filter		
Users can view other user profiles		
The app dynamically handles session-based state management		

AREAS FOR DEVELOPMENT		
There is no search functionality, so users cannot quickly find specific announcement.		
There is no validation for empty or invalid inputs		
Still placeholder names.		

STRATEGY FOR SUCCESS		
Develop a comprehensive system upgrade that includes input validation
